Buxton Press is well into a £20m-plus investment programme, which may explain why last year's winner has done it again. A major highlight was the installation of four new long-perfecting presses with all the trimmings. A huge "holistic" remodelling of the factory meanwhile helped accommodate the expansion and, no doubt, freed up badly needed space in that trophy cabinet. "I just don't know how they keep doing it," said one judge, "they just get stronger and stronger."

Highly commended
